Management

## Profile

I am a passionate and dedicated Front-End Web Developer who loves to build things for the betterment of society. I like writing code that is easy for humans to read and build User Interfaces that are easy for humans to understand. I love working with people and I believe in doing great work by doing what you love.

## Skills

HTML5	React	Paired programming	Working with APIs
CSS3	JQuery	Firebase	Git Collaboration
Sass	Git	Adobe Creative Cloud	Responsive Web Design
Javascript	Github	Web Accessibility	Final Cut Pro

## Projects

*Devcompile* REACT | API | FIREBASE

Built a social feed based off of the Dev.to articles API giving the user the ability to filter results and save article data to Firebase for later consumption.

*TravelAsk* JQUERY | API | SASS

With a partner working remotely, built an interactive travel centric information HUB. Users have the ability to look up vital information about potential travel destinations.

*Noah's Ark* JQUERY | SASS

Developed an interactive and fully accessible memory matching game using unicode emojis built with JQuery and Sass.

## Experience

*Business Application Specialist | MaRS Discovery District* APR 2019 - PRESENT

Performed technical business analysis, created user-facing technical documentation & designed and delivered cyber-security and internal core tools training programs.

*IT Service Lead | MaRS Discovery District* JUN 2017 - APR 2019

Ensured optimal service desk operations through documentation, reporting and providing continued feedback to service desk technicians.

*Technical Specialist | Apple Inc.* MAY 2014 - MAY 2017

Provide insightful advice and friendly, hands-on technical support to Apple customers in need.
